

The pad to pad welded bifurcating terminal is cast of high strength aluminum and is corona free through 500KV. To include compression terminals into an order, simply add the desired conductor size to the end of the item number.

Example: BATAF-18-90-EHV(2000AAC)
Contact sealant is recommended. To obtain a connector with the single pad rotated 90 degrees use the prefix "BATV."

Example: BATAFV-12-EHV.
