

A rugged connector for linking pipes of the same size at an angle with permanence and reliability, the economical Type EHV WTE depends on its high conductivity, lightweight aluminum alloy casting for resistance to corrosion and stress in the field. These connectors are capable of corona free performance up to 500KV.

Varying angles should be properly designated as a suffix to the catalog number. If, for instance, a 45 degree angle were requested for catalog number 18-654-EHV, the number should be written on the order as 18-649-45-EHV.

WELDED EHV ANGLED COUPLERS, PIPE TO PIPE			
CATALOG NUMBER	PIPE SIZE IPS	DIMENSIONS IN INCHES	
		A	B
18-654-EHV	2	2	5
18-655-EHV	2 1/2	2	5 1/2
18-656-EHV	3	3	7
18-657-EHV	3 1/2	1 1/2	6
18-658-EHV	4	4 1/2	9 1/2
18-660-EHV	5	2 1/2	9 1/4
18-661-EHV	6	3	9 1/2
