ALUMINUM TERMINALS,
CABLE TO FLAT PAD

Cast of a lightweight aluminum alloy, the Type ATU terminals include clamping hardware made of high tensile aluminum. All bolt heads are captivated to facilitate single-wrench installation. Side-formed NEMA pads are standard.

Wide Range denoted by: *

Any special tongue features will be readily supplied if designated by the addition of a suffix to the catalog number. Example: A 90 Degree tongue (for a 11-126) should appear as 11-126-90.
