BRONZE / ALUMINUM PARALLEL  
CABLE SPACERS**Bronze Parallel Cable Spacer**

The Type CS cable spacer connects a cable main parallel to a cable tap. It features a clamping member made of high strength, high conductivity copper alloy. The bolts, nuts, and lockwashers are silicon bronze to enhance clamping efficiency and resistance to corrosion.

**Aluminum Parallel Cable Spacer**

A high strength, high conductivity aluminum cable spacer, the Type CSA includes clamping hardware made of high-tensile aluminum for dependability and durability in the field. To facilitate installation, all bolt heads are captivated. Width (A) will vary with length.

**Note:** To obtain a cable spacer for (2) 300 MCM copper conductors spaced at 8" add suffix "-8"

Example: 110-103-CS-8.
